>> Intro:

When somebody first comes to the internet hoping to make money, they frequently stumble onto the same problems time and time again.

These problems are:

Where do I begin?

What do I do?

And ultimately... how do I make money?

Well here you go. This short manuscript will give you the exact steps, screen shots and tools so you can earn like the Gurus

What you will find here:

Blueprints so you can get in on the biggest internet launches BEFORE they happen, the exact tactic to use so you can start seeing a profit, and how to land a top spot on Google under the only search term that matters... the products name.

What you will not find here;

Any so called 'plug and play' systems. Because there will never be a system which requires zero action.

If you take action on any one of these business models you will earn money. If you fail to take action you will not make money. It is that simple.

But the best part is, once you've figured this out, you can expand into larger and larger businesses.

>> What You Will Need:

#1: A Product That's About To Launch.

#2: A Squidoo Lens or Blog.

#3: A Gmail Account.

#4: Action

Note: All of these are free.

>> Affiliate Sites:

You will want to sign up with the following sites. However, please note many of these early stage launches may have their own affiliate software. Make sure you pay attention.

www.ClickBank.com

www.PayDotCom.com

>> The Strategy AKA Do What The Big Kids Do

You're going to hunt for a product which will be released soon. You'll go to www.JV-Notifypro.com and register for their free forum. This is what the big kids do. They jump in early on a new product launch, milk it for all its worth while the hype is massive, and then get out.

You'll copy that exact formula using Search Engine Optimization tactics to land your Squidoo Lens at the top of the search results under the product name only.

Because you're new and don't yet know how to "add value" to an existing product, you'll want to offer them a rebate for buying through your affiliate link.

FYI: Make sure you read through the terms and conditions of the product you're

promoting so you know if this is okay.

For example: If this product makes you \$50 per sale, offer the buyers \$25 back. But... and this is the most important part...

They have to email you their receipt AFTER the return period has passed on the product.

Why? Because if you do it before they can get a rebate AND return the product. Not cool. You'll lose money.

The other reason you want to wait is simply because 99% of these buyers won't remember you offered them this in the first place. You will be lucky to see 1 or 2 requests.

Note: Set up a new Gmail.com account for this. You'll want to have something totally separate from your normal life when you're doing business online.

Day Job Killer Updates

Since yesterday , more than 10,030 people responded and a good thing too, because I just got a note from Chris, the author of **Day Job Killer**.

>> Here's How To Get Your Page Ranked Quickly:

Make sure you grab a launch that's taking place about 2 weeks from the day you put up your sales page.

Make sure the product name is in the URL of your Lens. 1x

Make sure the product name is in the Title of your Lens. 1x

Make sure the product name is in the Tag of your Lens. 1x

Make sure the product name is in each headline of your Lens

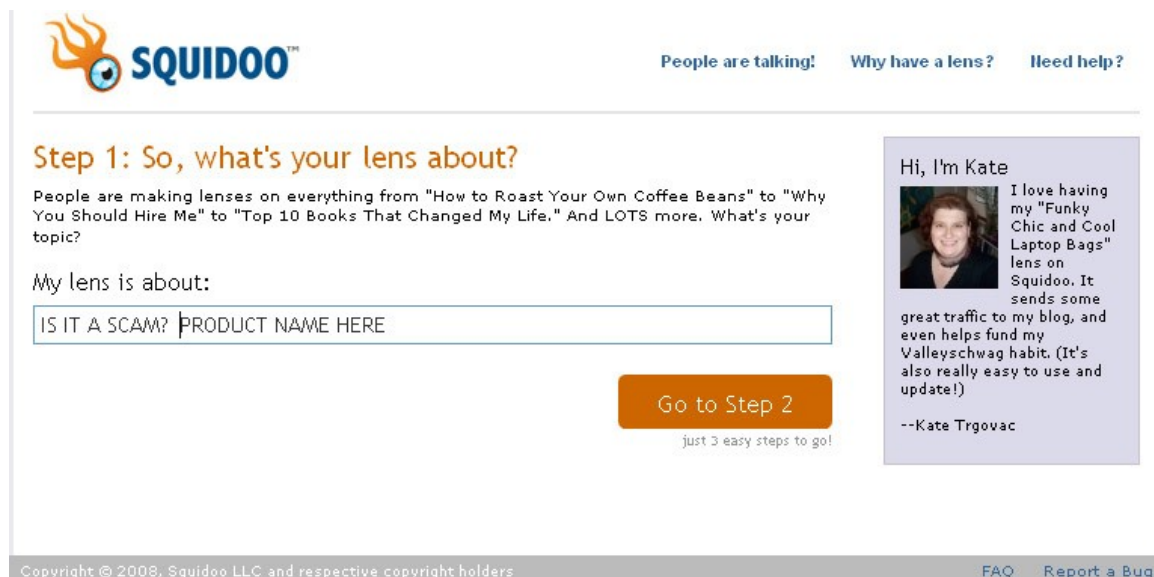

And make sure the product name is in the copy of your Lens

A quick note for in page optimization that will get you going quickly: make sure the product name is in Bold. Just look at the example screen shot to see what I'm talking about.

You don't need to do much more than that.

>> Here's what it looks like:

Step #1:

The screenshot shows the Squidoo website interface for creating a lens. At the top left is the Squidoo logo. To the right are navigation links: "People are talking!", "Why have a lens?", and "Need help?". The main heading is "Step 1: So, what's your lens about?". Below this is a paragraph of text: "People are making lenses on everything from 'How to Roast Your Own Coffee Beans' to 'Why You Should Hire Me' to 'Top 10 Books That Changed My Life.' And LOTS more. What's your topic?". Underneath is a text input field with the placeholder "My lens is about:" and the text "IS IT A SCAM? PRODUCT NAME HERE". To the right of the input field is an orange button labeled "Go to Step 2" with the subtext "just 3 easy steps to go!". On the far right is a testimonial box for "Hi, I'm Kate" featuring a photo of a woman and text: "I love having my 'Funky Chic and Cool Laptop Bags' lens on Squidoo. It sends some great traffic to my blog, and even helps fund my Valleyschwag habit. (It's also really easy to use and update!) --Kate Trgovac". At the bottom of the page, there is a footer with "Copyright © 2008, Squidoo LLC and respective copyright holders" on the left and "FAQ Report a Bug" on the right.

Step #2:

Step 2: What do you want to do with your lens?

A few real examples: There's Damon, a teacher who makes learning lenses with his students. And Jane Goodall, supporting her nonprofit organization. And Kimberly, an author promoting her books. And Raj, who wants traffic back to his blog. These are just 4 ways people use Squidoo. How will you?

- I want to get the word out about IS IT A SCAM? PRODUCT NAME HERE (easiest option)
- I'm gonna sell IS IT A SCAM? PRODUCT NAME HERE stuff and earn \$\$, for me or for charity (money maker!)
- I want to make a list of my favorite things about IS IT A SCAM? PRODUCT NAME HERE (most popular)
- I just want to do my own thing.

just 2 easy steps to go!

Easy as pie!

Allen

This was as fun as putting up a blog. I love having a place where I can post my stuff and have others see it.--Michael

Step #3:

Step 3: Title and URL

Tip #1: Clever lens titles can make great first impressions. Have fun!

Tip #2: When picking your Squidoo URL, just fill in the blank where it says www.squidoo.com/_____. (So, if your lens is about daschunds, try adding the word dashchund to the box. If your lens is about making paper airplanes, add paperairplanes to the box. Sorry, no spaces or weird characters).

Lens Title:

IS IT A SCAM? PRODUCT NAME HERE

Pick your URL, the link where your lens will live. (This can't be changed, so choose wisely).

www.squidoo.com/ PRODUCT NAME HERE

And pick a category for your lens:

--Scott Ginsberg

Step #4:

SQUIDOO™ People are talking! Why have a lens? Need help?

Step 4: Help people find your lens

Keywords (or "tags") are really important in helping people find your lens. Think about the search words someone might put into Google when he's looking for info on your topic. Those would be your lens tags.

The best keyword for my lens is:

That's it for On page optimization.

The only other thing to do is make sure you have your affiliate link clearly posted with a call to action:

BUY NOW!

(Your Link)

Then put in a PS: and tell them again why they're buying now.

Now, let's head out and look at "Off Page Optimization"

For Off page optimization you'll want to go to www.Addthis.com and grab one of those drop-down social bookmarking tabs. It's free. Install it on your blog.

>> Off Page Optimization Begins With www.AddThis.com

The screenshot shows the AddThis.com website. At the top left is the logo with a plus sign in an orange square. To the right are links for 'Blog | My Account | About'. Below the logo is a banner image of a crowd with the text '...unstoppable sharing.' Underneath the banner is the text 'One Button: your content everywhere through bookmarking and sharing' and a link '» Bookmark & Share the Superbowl Commercials!'. Below this is a 'Bookmark' button and an 'RSS Feed' button. A central box says 'GET YOUR BUTTON + free stats' with a bar chart icon. At the bottom of this box is a link 'New: Customize Your Button...read more!'. To the right of the main content is a grey sidebar with the heading 'WHY ADDTHIS?' followed by a list of features: '» Easy Bookmarking', '» Easy Sharing', '» Spreads Your Content', '» Increases Rankings', '» Removes Clutter', '» Easy to Install', '» Free Statistics', and '» Very Reliable'. At the bottom of the sidebar is the heading 'WHO'S USING IT:' followed by a list of names: 'TIME, Tower Records, TechCrunch, PGA, EW, Lonely Planet, Topix, IGN, InStyle, and many more'. At the bottom of the sidebar is a link '» Learn More'.

Next: Create a www.FaceBook.com page and have your direct link listed. From Facebook you'll not want to sell anything, but you will want to network around

and join some groups. Don't worry about selling.

Why are you in Facebook? Because it gets over 2x as many page views per month as Google. It is spidered constantly.

By adding social bookmarks to your site and having your link on facebook you greatly increase the chances of being indexed almost immediately and then being ranked in the Google top 10 under the product name.

>> **Content For Your Site:**

Use the emails you will receive from the seller. If you look at the lens for DJK you will notice there is very little content. What they have done is rehash pre-launch emails.

>> **Psychological Outline Of Your Site:**

You're mad. Somebody got scammed and you're not going to take it any more. Sound stupid? Well you'd be amazed at how effective this can be. Remember, when a new product is launched people will want to see some reviews. If they start seeing "Scam This" or "Fraud That" then they'll click just to see what the fuss is about.

Keep in mind that you don't really need to bash the life out of it in order to get a sale. Just make sense.

Tell them about how you got taken and now you're going to show them how they can get a discount on the product.

In the next lens you'll talk about how because you want to give them more value because the book is powerful and it's already made you money. And you're going to do that by hitting them with a rebate if they buy from you.

All they have to do is click on your affiliate link, purchase the product and end you the receipt after the return period.

End of story. Have your affiliate link there, have your email address and you're good!

Note: You'll want to make sure you write your email like this... EMAIL (at) gmail.com

>> **What's Next?**

Nothing. Set it up and wait for cash to come in. If aren't listed in the Google top 10 three days before the actual launch you'll want to create another group of accounts on your AddThis toolbar under a different email address.

I do not suggest doing this more than 2 times as you can be banned. However, 2 times should be fine.

Lather. Rinse. Repeat.

This is really how the big kids do it. All those "super affiliates" you hear so much about are using this exact strategy to blow the doors off their competition and make massive cash when the product hype is high.

I strongly suggest not using Adwords as it'll just cost you a bunch of money. This is fast, it's easy and it's free.

Once you do this you'll understand how easy it is to make real money online.

And it's exactly how you can build a very serious income for yourself with...

No product

No list

No real marketing

No clue!
